

I support and appreciate the Wisconsin Do-Not-Call-List. I have been on this list for the past two years and it has helped considerably cut down on the number of telemarketing calls that we receive. I do not appreciate it when telemarketers call during dinner time and late in the evening. I've gotten them as late as 9 pm, and that's just unacceptable. Please leave the state list alone, as the Federal List does not do enough.

Thank you,
Connie Sullivan
